Carpet Protector

TriPlex

Tomorrow's Technology Today™

Specially designed and tested safe for today's carpet. Designed to replace or enhance any of the built-in properties of the carpet that may have been removed during the wet cleaning process or worn off by normal abrasion (foot traffic, vacuuming, etc.). Contains additives to give this product the following features: anti-stain, wet and dry soil release. When properly applied carpets stay clean longer, it reduces carpet fiber abrasion, and prolongs the life and beauty of the carpet. Can be added to the cleaning solution or applied topically.

Directions:

- * Test fabric for color stability before use.
- * Apply product using a suitable, electric or pump style sprayer with a fan tip no smaller than an 04
- * Spray evenly until carpet is slightly damp to the touch.
- * May be applied to wet or dry, clean carpet.
- * May be used on wet cleanable fabrics.
- * After application allow carpet or fabric to dry before use.
- * Dilution may be varied to accommodate needed dry times as long as the coverage rates below are followed

Afford 200 demonstrates superior anti-stain properties

Coverage Per Gallon

Extraction Cleaning

- Portable: Use 2.0 oz per gallon of extraction cleaning solution
- Truck mount: Use 80.0 oz per stock solution tank (coverage 2,000sq. ft)

Rotary Cleaning

- When a prespray is used: Use 32.0 oz per gallon of prespray solution. Coverage 800 sq. ft. of coverage
- When a solution tank on the machine is used: Use 5.0 oz per 125 sq. ft. of coverage

Dry Foam Shampooer: Use 5.0 oz per 125 sq. ft. of coverage

Topical Spray: Use 16.0 oz per gallon. Apply at a rate of 400 sq. ft. per diluted gallon

*Note: When applied to mill treated carpet, AFFORD rates should be cut in half
