New in 2009! EPA DfE Approved Products

State governments across the United States are mandating the use of Green Products in schools and government buildings. Rest assured you are using EPA Design for the Environment Approved products with the **Go Clean Product Line**. These product lines also have the following features:

- Non-Toxic
- Skin Friendly
- Anti-Resoiling Agents
- Anti-Stain Properties

Green Guard

The first carpet protector to receive the EPA DfE approval! Green Guard is a cutting edge encapsulation product that contains anti-stain, anti-resoiling properties that neutralize alkalinity residues and limits wicking to carpets. Simply spray on carpet to prevent browning or yellowing. Stops wicking permanently!

Go Clean Carpet/Upholstery Cleaner

Specially designed for today's carpets, Go Clean Carpet/Upholstery Cleaner demonstrates superior anti-resoiling and anti-stain properties. Safe for use on Wool.
Use as a Pre-Spray or Low Moisture Cleaner

Go Clean Bonnet Cleaner

Go Clean Bonnet Cleaner is formulated for normal maintenance of carpets. Contains Soil Retardant Dry Residue Formula in which Dry Soils are repelled from fibers for easier cleaning.

- Wet/Dry Soil Release
- Anti-Stain
- Anti-Resoiling

Offering Proven "SOLUTIONS"

Go Clean Spot Remover

Formulated to remove a wide variety of spots from carpets, fabrics and hard surfaces. Safe for Wool.

Go Clean Hard Surface Cleaner

Effective as a daily maintenance cleaner for mopping and/or use in auto scrubbers on porcelain and ceramic tile, Vct, Concrete, Wood and other hard surfaces. May also be used in/ or with a pressure rotating cleaning systems.

Go Clean Rinse

When used on carpets, fabrics and hard surfaces it is designed to neutralize alkalinity and help rinse away cleaning solutions, leaving a cleaner, brighter surface. It also provides anti-stain, anti-soiling and anti-wicking features to your carpets.

Benefits of Green Products:

Protects our Environment – Our **8400 Green & Green Guard Product Line** is formulated with our Earth and its inhabitants in mind. These products are fragrance free, biodegradable, phosphate free and also contains no VOC's. This practice leads to a more positive environmental profile than standard cleaning products.

Safety – The **8400 Green & Green Guard Product Line** is formulated to ensure that ingredients contain no components that pose serious hazards. This is beneficial to everyone in the school system from the maintenance crew that uses these chemicals daily to children who can be sensitive to many of the chemicals in some cleaning products.

Conservation – Using our system can extend the life of your fabric and surfaces.

Education – Tri-Plex Technical Services, Ltd. provides all our customers information on the benefits of using formulations with improved environmental and health characteristics. By using EPA Design for Environment Approved products you can assure that your school district is using products designed to protect human health and the environment.
